Sigma-Aldrich.

## SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

Version 6.2 Revision Date 15.06.2022 Print Date 20.06.2023 GENERIC EU MSDS - NO COUNTRY SPECIFIC DATA - NO OEL DATA

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifiers		
	Product name	:	Tetrafluoroboric acid solution
			Tetrafluoroboric acid solution
	Product Number	:	207934
	Brand	:	SIGALD
	REACH No.	:	This product is a mixture. REACH Registration Number see section 3.

## **1.2** Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Laboratory chemicals, Manufacture of substances

## **1.3** Details of the supplier of the safety data sheet

	Company	:	Sigma-Aldrich Chemie GmbH Eschenstrasse 5 D-82024 TAUFKIRCHEN
	Telephone Fax E-mail address	::	+49 (0)89 6513-1130 +49 (0)89 6513-1161 technischerservice@merckgroup.com
1.4	Emergency telephone		
	Emergency Phone #	:	0800 181 7059 (CHEMTREC Deutschland) +49 (0)696 43508409 (CHEMTREC

weltweit)

### **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

**Classification according to Regulation (EC) No 1272/2008** Skin corrosion (Sub-category 1B), H314 Serious eye damage (Category 1), H318

For the full text of the H-Statements mentioned in this Section, see Section 16.

#### 2.2 Label elements

## Labelling according Regulation (EC) No 1272/2008

Pictogram

Signal Word

Danger

SIGALD- 207934

Page 1 of 10

Hazard statement(s) H314	Causes severe skin burns and eye damage.
Precautionary statement(s) P280	Wear protective gloves/ protective clothing/ eye protection/ face protection.
P303 + P361 + P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
P304 + P340 + P310	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER/ doctor.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P363	Wash contaminated clothing before reuse.
P405	Store locked up.
Supplemental Hazard Statements	none

## 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher. Strong hydrogen fluoride-releaser Lachrymator.

## SECTION 3: Composition/information on ingredients

## 3.2 Mixtures

Formula	:	HBF4
Molecular weight	:	87,81 g/mol

Component		Classification	Concentration	
tetra-fluoroboric acid				
CAS-No. EC-No. Index-No.	16872-11-0 240-898-3 009-010-00-X *	Skin Corr. 1B; Eye Dam. 1; H314, H318 Concentration limits: >= 25 %: Skin Corr. 1B, H314; 10 - < 25 %: Skin Irrit. 2, H315; 10 - < 25 %: Eye Irrit. 2, H319;	>= 50 - < 70 %	

\*A registration number is not available for this substance as the substance or its use are exempted from registration according to Article 2 REACH Regulation (EC) No 1907/2006, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline.

For the full text of the H-Statements mentioned in this Section, see Section 16.

SIGALD- 207934

## **SECTION 4: First aid measures**

## 4.1 Description of first-aid measures

## General advice

Hydrofluoric (HF) acid burns require immediate and specialized first aid and medical treatment. Symptoms may be delayed up to 24 hours depending on the concentration of HF. After decontamination with water, further damage can occur due to penetration/absorption of the fluoride ion. Treatment should be directed toward binding the fluoride ion as well as the effects of exposure. Skin exposures can be treated with a 2.5% calcium gluconate gel repeated until burning ceases. More serious skin exposures may require subcutaneous calcium gluconate except for digital areas unless the physician is experienced in this technique, due to the potential for tissue injury from increased pressure. Absorption can readily occur through the subungual areas and should be considered when undergoing decontamination. Prevention of absorption of the fluoride ion in cases of ingestion can be obtained by giving milk, chewable calcium carbonate tablets or Milk of Magnesia to conscious victims. Conditions such as hypocalcemia, hypomagnesemia and cardiac arrhythmias should be monitored for, since they can occur after exposure. First aiders need to protect themselves. Show this material safety data sheet to the doctor in attendance.

## If inhaled

After inhalation: fresh air. Call in physician.

### In case of skin contact

First treatment with calcium gluconate paste. In case of skin contact: Take off immediately all contaminated clothing. Rinse skin with water/ shower. Call a physician immediately.

### In case of eye contact

After eye contact: rinse out with plenty of water. Immediately call in ophthalmologist. Remove contact lenses.

### If swallowed

After swallowing: make victim drink water (two glasses at most), avoid vomiting (risk of perforation). Call a physician immediately. Do not attempt to neutralise.

- **4.2 Most important symptoms and effects, both acute and delayed** The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11
- **4.3 Indication of any immediate medical attention and special treatment needed** No data available

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

## **Unsuitable extinguishing media** For this substance/mixture no limitations of extinguishing agents are given.

### 5.2 Special hazards arising from the substance or mixture

Hydrogen fluoride Borane/boron oxides Not combustible.

SIGALD- 207934

The life science business of Merck operates as MilliporeSigma in the US and Canada

Page 3 of 10

Ambient fire may liberate hazardous vapours.

## 5.3 Advice for firefighters

Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

## 5.4 Further information

Suppress (knock down) gases/vapors/mists with a water spray jet. Prevent fire extinguishing water from contaminating surface water or the ground water system.

## **SECTION 6:** Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Advice for non-emergency personnel: Do not breathe vapors, aerosols. Avoid substance contact. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, consult an expert. For personal protection see section 8.
- **6.2 Environmental precautions** Do not let product enter drains.
- 6.3 Methods and materials for containment and cleaning up Cover drains. Collect, bind, and pump off spills. Observe possible material restrictions (see sections 7 and 10). Take up with liquid-absorbent material (e.g. Chemizorb®). Dispose of properly. Clean up affected area.
- **6.4** Reference to other sections For disposal see section 13.

## **SECTION 7: Handling and storage**

**7.1 Precautions for safe handling** For precautions see section 2.2.

## 7.2 Conditions for safe storage, including any incompatibilities

### Storage conditions

Tightly closed. Keep locked up or in an area accessible only to qualified or authorized persons.

Do not store in glass

### Storage class

Storage class (TRGS 510): 8B: Non-combustible, corrosive hazardous materials

### 7.3 Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

SIGALD- 207934

The life science business of Merck operates as MilliporeSigma in the US and Canada

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

## Ingredients with workplace control parameters

### 8.2 Exposure controls

## Personal protective equipment

## Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Tightly fitting safety goggles

## **Body Protection**

protective clothing

### **Respiratory protection**

required when vapours/aerosols are generated. Our recommendations on filtering respiratory protection are based on the following standards: DIN EN 143, DIN 14387 and other accompanying standards relating to the used respiratory protection system. Recommended Filter type: Filter type ABEK

The entrepeneur has to ensure that maintenance, cleaning and testing of respiratory protective devices are carried out according to the instructions of the producer. These measures have to be properly documented.

## Control of environmental exposure

Do not let product enter drains.

#### SECTION 9: Physical and chemical properties 9.1 Information on basic physical and chemical properties

a)	Physical state	liquid
b)	Color	No data available
c)	Odor	No data available
d)	Melting point/freezing point	No data available
e)	Initial boiling point and boiling range	No data available
f)	Flammability (solid, gas)	No data available
g)	Upper/lower flammability or explosive limits	No data available
h)	Flash point	No data available
i)	Autoignition temperature	Not applicable
j)	Decomposition	No data available

SIGALD- 207934

temperature

k)	рН	No data available
I)	Viscosity	Viscosity, kinematic: No data available Viscosity, dynamic: No data available
m)	Water solubility	at 20 °C soluble
n)	Partition coefficient: n-octanol/water	No data available
o)	Vapor pressure	No data available
p)	Density	1,4 g/mL at 25 °C
	Relative density	No data available
q)	Relative vapor density	No data available
r)	Particle characteristics	No data available

- s) Explosive properties Not classified as explosive.
- t) Oxidizing properties none

#### **9.2 Other safety information** No data available

## **SECTION 10: Stability and reactivity**

**10.1 Reactivity** No data available

## **10.2 Chemical stability** The product is chemically stable under standard ambient conditions (room temperature) .

**10.3 Possibility of hazardous reactions** No data available

#### **10.4 Conditions to avoid** Reacts dangerously with glass. no information available

- **10.5 Incompatible materials** Strong basesglass
- **10.6 Hazardous decomposition products** In the event of fire: see section 5

## **SECTION 11: Toxicological information**

## 11.1 Information on toxicological effects

### Mixture

## Acute toxicity

Oral: No data available

SIGALD- 207934

The life science business of Merck operates as MilliporeSigma in the US and Canada

Page 6 of 10

Symptoms: If ingested, severe burns of the mouth and throat, as well as a danger of perforation of the esophagus and the stomach. Symptoms: mucosal irritations, Cough, Shortness of breath, Possible damages:, damage of respiratory tract

Dermal: No data available

**Skin corrosion/irritation** Mixture causes burns.

## Serious eye damage/eye irritation

Mixture causes serious eye damage. Risk of blindness!

#### Respiratory or skin sensitization

No data available

Germ cell mutagenicity No data available

Carcinogenicity No data available

**Reproductive toxicity** No data available

#### **Specific target organ toxicity - single exposure** No data available

**Specific target organ toxicity - repeated exposure** No data available

**Aspiration hazard** No data available

#### **11.2 Additional Information**

#### **Endocrine disrupting properties**

#### Product:

Assessment

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Material is extremely destructive to tissue of the mucous membranes and upper respiratory tract, eyes, and skin., spasm, inflammation and edema of the larynx, spasm, inflammation and edema of the bronchi, pneumonitis, pulmonary edema, burning sensation, Cough, wheezing, laryngitis, Shortness of breath, Headache, Nausea Fluoride ion can reduce serum calcium levels possibly causing fatal hypocalcemia. Other dangerous properties can not be excluded.

Handle in accordance with good industrial hygiene and safety practice.

### Components

#### tetra-fluoroboric acid

#### **Acute toxicity**

Oral: No data available Inhalation: No data available

SIGALD- 207934

The life science business of Merck operates as MilliporeSigma in the US and Canada

Page 7 of 10

Dermal: No data available

## Skin corrosion/irritation

Skin - Rat Result: Corrosive Remarks: Classified according to Regulation (EU) 1272/2008, Annex VI (Table 3.1/3.2)

## Serious eye damage/eye irritation

Eyes - Rabbit Result: Corrosive to eyes

**Respiratory or skin sensitization** No data available

#### Germ cell mutagenicity No data available

**Carcinogenicity** No data available

#### **Reproductive toxicity** No data available

Specific target organ toxicity - single exposure No data available

Specific target organ toxicity - repeated exposure No data available

Aspiration hazard No data available

## **SECTION 12: Ecological information**

## 12.1 Toxicity

Mixture No data available

- 12.2 Persistence and degradability No data available
- **12.3 Bioaccumulative potential** No data available

## **12.4 Mobility in soil**

No data available

## 12.5 Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

# 12.6 Endocrine disrupting properties Product:

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SIGALD- 207934

Page 8 of 10

## 12.7 Other adverse effects

No data available

## Components

<b>tetra-fluoroboric acid</b>	LC50 - Danio rerio (zebra fish) - 2.600 mg/l - 96 h
Toxicity to fish	(OECD Test Guideline 203)
Toxicity to daphnia	EC50 - Daphnia magna (Water flea) - > 100 mg/l
and other aquatic	Remarks: Information given is based on data on the ingredients
invertebrates	and the ecotoxicology of similar products.
Toxicity to algae	NOEC - Pseudokirchneriella subcapitata (green algae) - > 100 mg/l - 72 h Remarks: Information given is based on data on the ingredients and the ecotoxicology of similar products.

## SECTION 13: Disposal considerations

## **13.1 Waste treatment methods**

#### Product

See www.retrologistik.com for processes regarding the return of chemicals and containers, or contact us there if you have further questions.

SECTION 14: Transport information			
<b>14.1 UN number</b> ADR/RID: 1775	IMDG: 1775	IATA: 1775	
<b>14.2 UN proper shipping name</b> ADR/RID:ADR/RID:FLUOROBORIC AC FLUOROBORIC AC IATA:IATA:Fluoroboric acid			
14.3 Transport hazard class(es ADR/RID: 8	) IMDG: 8	IATA: 8	
14.4 Packaging group ADR/RID: II	IMDG: II	IATA: II	
14.5 Environmental hazards ADR/RID: no	IMDG Marine pollutant: no	IATA: no	
14.6 Special precautions for use No data available	er		

## SECTION 15: Regulatory information

## **15.1** Safety, health and environmental regulations/legislation specific for the substance or mixture

SIGALD- 207934

Page 9 of 10

The life science business of Merck operates as MilliporeSigma in the US and Canada

This material safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006.

## **Other regulations**

Take note of Dir 94/33/EC on the protection of young people at work.

### **15.2 Chemical Safety Assessment**

For this product a chemical safety assessment was not carried out

#### **SECTION 16: Other information**

## Full text of H-Statements referred to under sections 2 and 3.

- H314 Causes severe skin burns and eye damage.
- H315 Causes skin irritation.
- H318 Causes serious eye damage.

H319 Causes serious eye irritation.
